

## **Churchwarden's Report**

I'm sure parts of this report will be covered in more detail in other reports given tonight.

April 2019 started the year for both Mike and I as brand new to the Churchwarden role.

We both got wet going to Churchwarden training in Bradford and ending up looking like drown rats at Church House in Leeds. We could have been auditioning for Noah and the Flood.

PCC set up the facilities sub team in April 2019, which has worked well for decisions including on where to put the Clothing Bank, moving Impact Gamers down to the Hall and discussions around the toilets, office and the West window.

We both would like to thank:

David for his continuing help around church

Adam for keeping us in contact with each other and

Andy for his sterling work on sanding floors and doors.

To say it's been a strange 12 months as Churchwardens is an understatement. Not only because we haven't been able to meet as a Church family in person, but something both Mike and I have found is that Covid-19 is aptly named, our first year has actually been 19 months long.

We can only look forward and with hope and prayer we will get back to having the St. Stephen's Sunday worship that we all loved prior to March 2020.

Sue and Mike
